10

What are the characteristics of high impact teams?

**When faced with difficult challenges they:**

- stay focused
- rely on their training
- hold high expectations of themselves and others
- have confidence and trust in the team
- hold a strong conviction that they can succeed despite all other circumstances
- rely on each other in interdependent ways

11

What is collective teacher efficacy and why is it important?

12

13

---

---

---

---

---

---

14

---

---

---

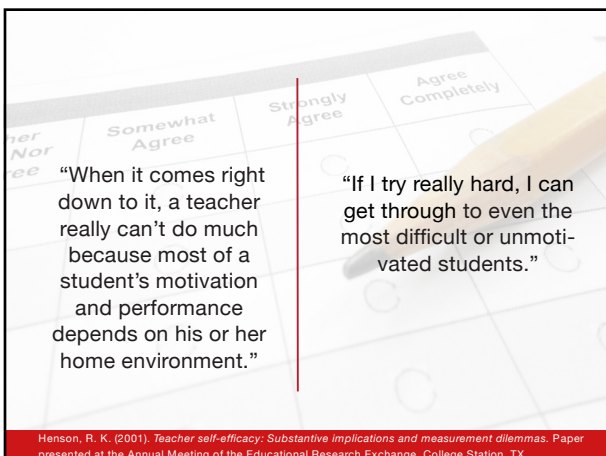

---

---

---

---

---

15

---

---

---

---

---

---

---

---

Efficacy beliefs reveal themselves in different ways:

- Everyday conversations (in which teams attribute causes for success/failure).
- Behavior (e.g., tasks assigned to students).
- Verbal and Non-Verbal Messages (e.g., sending messages to students that they are capable).
- Motivations (e.g., goals individuals and teams set).

16

---

---

---

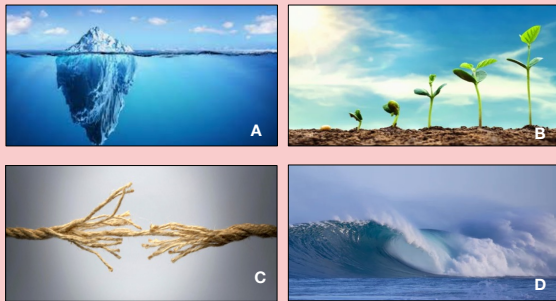

---

---

---

---

---

Which metaphor best represents the strength of the team's efficacy?  
Why did you select that particular image?

17

**Defining Collective Efficacy**

Read the different definitions of collective teacher efficacy.

Highlight important words/phrases.

Use the space at the bottom to define it in your own words.

Be prepared to share with others.

**Defining Collective Teacher Efficacy**  
Consider the definitions of collective teacher efficacy below and highlight words or phrases that resonated with you.

Collective teacher efficacy is the belief that teachers in a given school can positively influence the educational achievement of their students and contribute to the success of the school.

Collective teacher efficacy refers to the beliefs of teachers in a school that they can organize and execute the collective actions required to have a positive effect on students' learning.

Collective efficacy, according to Bandura, refers to the belief that a group of people can organize and execute the collective actions required to have a positive effect on students' learning.

Collective efficacy refers to the school's belief that the school's staff can have a positive effect on students' learning through their collective actions.

Use the space below to define collective teacher efficacy in your own words. How does your definition compare with your colleagues?

### By Contrast

- Students who are taught by teachers with a low sense of self-efficacy have lowered performance expectations.
- Students who are struggling academically will continue to experience difficulty if they receive instruction from teachers who have a weakened sense of efficacy.
- When teachers lack efficacy beliefs, they weaken students' sense of efficacy.

**Four Sources of Collective Teacher Efficacy**

Bandura (2002) explained that "when faced with obstacles, setbacks, and failures, those who doubt their capabilities weaken their efforts, give up, or settle for mediocre solutions. Those who have a strong belief in the capabilities reduce their effort to master the challenge" (p. 120).

**1. Mastery Experiences**  
Mastery experiences are the most powerful source of efficacy beliefs. When individuals and/or teams successfully accomplish a task or overcome a challenge, it strengthens their belief in their own capabilities. For efficacy to be enhanced, teams need to succeed at the things they perceive as difficult, and they must interpret their success through a growth mindset.  
Describe a time when your team succeeded at something challenging. How did this impact your collective confidence?

**2. Vicarious Experiences**  
Observing others successfully complete a task can also boost efficacy beliefs, particularly when the observer identifies with the model. Vicarious experiences are particularly powerful when the model shares similar characteristics with the observer, such as years of experience, subject area, or student population.  
What have you observed other teams or schools doing that made you think "we could do that too"? What made their context or situation similar enough to yours?

**Persuasion**  
Persuasion refers to the positive feedback, encouragement, and support individuals and teams receive from others. Persuasion can be used to enhance efficacy if educators find the persuader credible and trustworthy.  
Who has encouraged your team's efforts recently? What did they say that strengthened your belief in your collective capability?

**Feelings/Emotions**  
Team's emotional and physiological reactions to situations also influence their efficacy beliefs. Negative emotions diminish efficacy. Positive emotions strengthen it.  
What emotions have dominated your team's work recently? How have these feelings influenced your sense of collective efficacy?

Chapter Bandura, A. (2002). Cultivate self-efficacy for personal and organizational effectiveness. *Bandura's Handbook of Principles of Organizational Behavior* 105-126. Oxford, Boston.

What are the implications for fostering efficacy in your school?

---

---

---

---

**Non-Example**

Tug of war -there is no challenge too big!  
#collectiveefficacy

**Example**

Where are they now?

73

---

---

---

---

---

---

---

---

**A Model for Leading Collective Efficacy**

What do you notice or infer from this model?

74

---

---

---

---

---

---

---

---

**Five Enabling Conditions for Collective Teacher Efficacy**

1. Consensus on Goals
2. Empowered Teachers
3. Cohesive Teacher Knowledge
4. Embedded Reflective Practice
5. Supportive Leadership

Donohoo, J., O'Leary, T., & Hattie, J. (2019). The design and validation of the enabling conditions for collective efficacy scale. *Journal of Professional Capital and Community.*

75

---

---

---

---

---

---

---

---

## #1. Goal Consensus

Ross and colleagues noted that one of the school processes that had the strongest effect on collective teacher efficacy was shared school goals.

Ross, J., Hogaboam-Gray, A., & Gray, P. (2004). Prior student achievement, collaborative school processes, and collective teacher efficacy. *Leadership and Policy in Schools*, 3(3), 163-188.

76

---

---

---

---

---

---

---

---

## #2. Empowered Teachers

There is a *clear* and *strong* relationship between collective efficacy and the extent of teacher leadership in a school.

Derrington, M., & Angelle, P. (2013). Teacher leadership and collective efficacy: Connections and links. *International Journal of Teacher Leadership*, 4(1), 1-13.

77

---

---

---

---

---

---

---

---

## #3. Cohesive Teacher Knowledge

Newmann, Rutter, and Smith found that collective teacher efficacy was significantly associated with teachers' knowledge of each other's practice.

Newmann, F.M., Rutter, R.A., & Smith, M.S. (1989). Organizational factors that affect school sense of efficacy, community, and expectations. *Sociology of Education*, 62, 221-238.

78

---

---

---

---

---

---

---

---

### #3. Cohesive Teacher Knowledge

Collective teacher efficacy was associated with a cohesive faculty.

Hoss, J., Hogaboam-Gray, A., & Gray, P. (2004). Prior student achievement, collaborative school processes, and collective teacher efficacy. *Leadership and Policy in Schools*, 3(3), 163-188.

79

---

---

---

---

---

---

---

---

### #4. Embedded Reflective Practices

When the conditions are set for teachers to come together to determine solutions to challenges of practices and hierarchy is flattened, it helped in fostering a sense of collective efficacy.

Adams, C., & Forsyth, P. (2008). Proximate sources of collective teacher efficacy. *Journal of Educational Administration*, 44(6), 625-642.

80

---

---

---

---

---

---

---

---

### #5. Supportive Leaders

Supportive leadership is fundamental to cultivating collective teacher efficacy. In schools with high levels of supportive leadership, school leaders show concern for the teaching staff.

They provide explicit support to teachers in carrying out their duties effectively and regularly acknowledge the accomplishments of individuals and teams within the school.

81

---

---

---

---

---

---

---

---

## #1. Shared goals foster collective efficacy.

Ross and colleagues noted that one of the school processes that had the strongest effect on collective teacher efficacy was shared school goals.

Ross, J., Hogaboam-Gray, A., & Gray, P. (2004). Prior student achievement, collaborative school processes, and collective teacher efficacy. *Leadership and Policy in Schools*, 3(3), 163-188.

82

---

---

---

---

---

---

---

---

83

---

---

---

---

---

---

---

---

"The beauty of climbing a mountain is that you can actually see your goal."

Personal interview with Stacy Allison (2018)

84

---

---

---

---

---

---

---

---

85

---

---

---

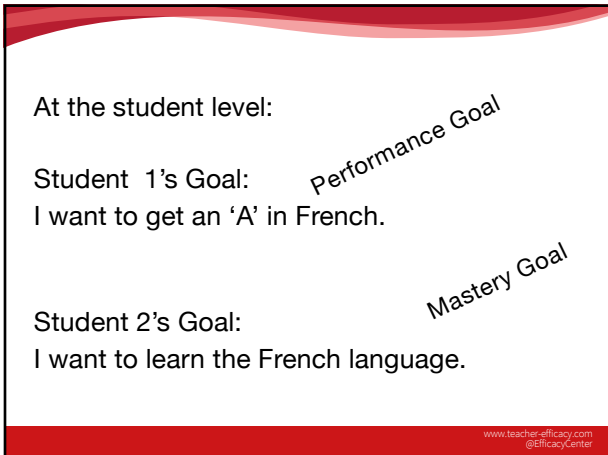

---

---

---

---

---

86

---

---

---

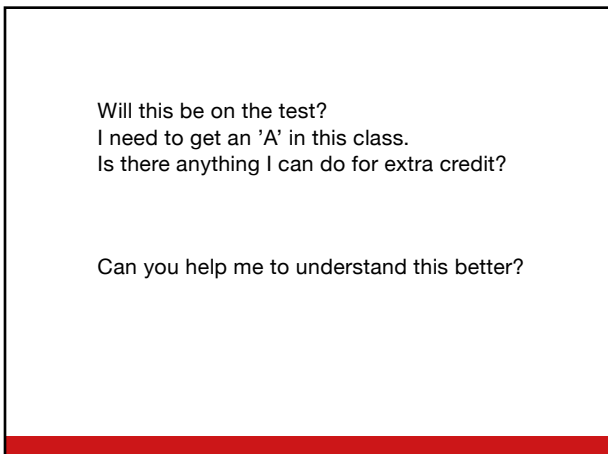

---

---

---

---

---

87

---

---

---

---

---

---

---

---

Students with mastery-approach goals focus on the development of competence for its own sake.

When students have mastery-approach goals, they strive to master or know the task they are working on; they are motivated to learn in order to improve their knowledge and abilities.

The emphasis is on learning and self-improvement.

An example of a mastery-approach item is: "I want to learn as much as possible from this class."

---

---

---

---

---

---

---

---

88

---

---

---

---

---

---

---

---

89

---

---

---

---

---

---

---

---

90

## Mastery versus Performance Goals

### Turn and Talk

What are your thoughts about what Melissa shared? What you're learning about mastery versus performance goals?

www.teacher-efficacy.com  
@EfficacyCenter

91

---

---

---

---

---

---

---

---

92

---

---

---

---

---

---

---

---

Small wins fuel transformative changes by leveraging tiny advantages into patterns that convince people that bigger achievements are within reach.

Duhigg (2012)

93

---

---

---

---

---

---

---

---

## #2. Empowered Teachers

- Provide authentic opportunities for teachers to lead school improvement.
- “Trust the process as well as the people.”  
(Hargreaves & Fullan, 2012).

94

---

---

---

---

---

---

---

---

Successful and sustainable change can never be done *to* or *even for* teachers – it can only be accomplished *by and with* them.

Hargreaves, A., & Fullan, M. (2012). Professional Capital: Transforming Teaching in Every School. Teachers' College Press, New York, NY.

95

---

---

---

---

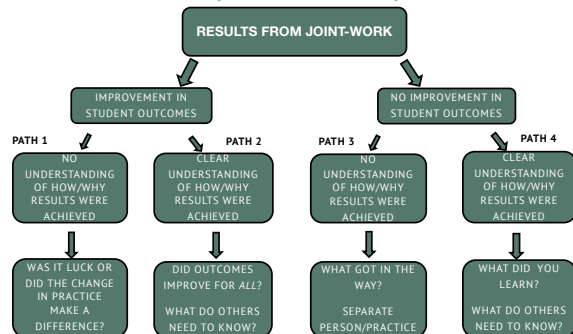

---

---

---

---

## #3. Cohesive Teacher Knowledge Know Thy Collective Impact

96

---

---

---

---

---

---

---

---

### Positive Interdependence

www.teacher-efficacy.com  
@EfficacyCenter

97

---

---

---

---

---

---

---

---

The relationship between collective efficacy and performance is maximized when there is positive interdependence amongst team members.

Gully, S., Incalcaterra, K., Joshi, A., & Beaubien, J. (2002). A meta-analysis of team-efficacy, potency, and performance: Interdependence and level of analysis as moderators of observed relationships. *Journal of Applied Psychology*, 87(5), 819-832.

98

---

---

---

---

---

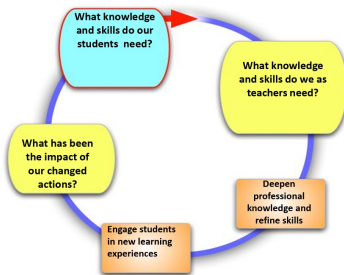

---

---

---

### #4. Embedded Reflective Practice

Teacher inquiry and knowledge-building cycle to promote valued student outcomes

99

---

---

---

---

---

---

---

---

#### #4. Embedded Reflective Practice

Create Opportunities for Meaningful Collaboration

Research shows that leadership has an indirect impact on student achievement through collaboration and efficacy.

Leadership → Collaboration → Collective Efficacy → Student Achievement

Goddard, R., Goddard, Y., Kim, E., & Miller, R. (2015). A theoretical and empirical analysis of the roles of instructional leadership, teacher collaboration, and collective beliefs in support of student learning. *American Journal of Education*, 121, 501-530.

---

---

---

---

---

---

---

---

101

---

---

---

---

---

---

---

---

102

---

---

---

---

---

---

---

---

### Connections to Your Practice

- What structures/protocols does your professional learning community utilize in order to capitalize on collaboration?
- Do they result in change in practice and improvements in student learning? How do you know?

---

---

---

---

---

---

---

---

103

### #5. Supportive Leadership

School leaders create the conditions for teachers to believe in their collective power to positively impact student learning through their shared expertise, collaborative practices, and unified sense of purpose.

---

---

---

---

---

---

---

---

104

A theme that consistently emerged in the interview data was that when teachers described mastery experiences, how they learned vicariously, or mood (affective states) of their schools "they frequently emphasized what their principals did to contribute in these areas" (p. 11).

Goddard, R., Skrla, L., & Salloum, S. (2017). The role of collective efficacy in closing student achievement gaps: A mixed methods study of school leadership for excellence and equity. *Journal of Education for*

---

---

---

---

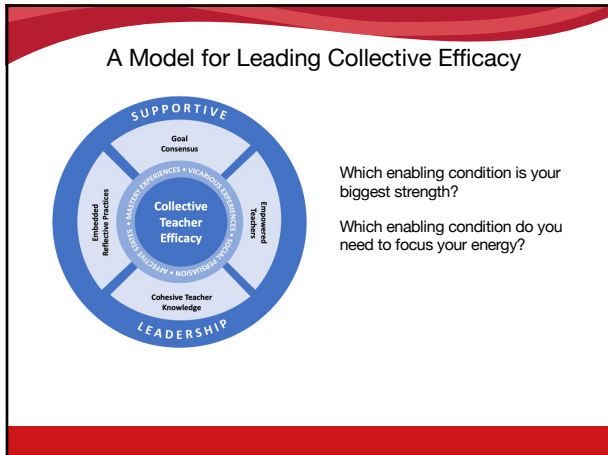

---

---

---

---
